If you are comfortable with Mainstream, the 26/27 dance season will be the best time for you to learn Plus.

CallerLab has established a new list of moves in each level starting in Sept 2026. Current **Mainstream dancers** will already know 6 of the new moves that have moved up into the Plus level. We'll teach you the rest. We'll even have to teach the current **Plus dancers** 8 new moves that have moved down from Advance ... so Mainstream dancers can feel right at home learning along with them. All in all, a good season with everybody needing to learn Plus moves.
